

**MOULTON-NIGUEL WATER DISTRICT
DIRECTOR, DIVISION 7**

GARY R. KURTZ

OCCUPATION: Director, Moulton-Niguel Water District,
Division 7

I'm seeking re-election as Director of Division 7 to continue my role in the effective performance the Board of Directors has accomplished for our customers. The Board has met the challenges for water related services. Some highlights:

Provided safe, high-quality water meeting and exceeding strict Federal and State guidelines.

No rate increases during my years in office. Our customers enjoy the lowest water rates in Orange County.

Refinanced bonds and certificates of participation saving customers \$48,850,000 over the past 10 years and the next 20 years combined.

Signed antenna lease agreements with cellular companies yielding \$1+ million in annual income.

Expanded Recycled Water Program providing 5.7+ million gallons per day to 1,000+ sites, and receiving \$ 5+ million in Metropolitan Water District reimbursements.

Implemented a 2 year budget process and updated our long-range plan to identify short and long-term goals.

Exercised budget restraint, financial responsibility, and investment policy within State of California guidelines.

These efforts combine to provide quality water and low rates. My business expertise and Board experience equip me to continue efficient and affordable services to customers. I will serve you honorably as Director of Division 7. Contact me at 800-688-1628.
